# How might we use semiotics

## FOR INDIVIDUALS IN REHAB?

## What is semiotics?

the study of how meaning is created through different forms of communication

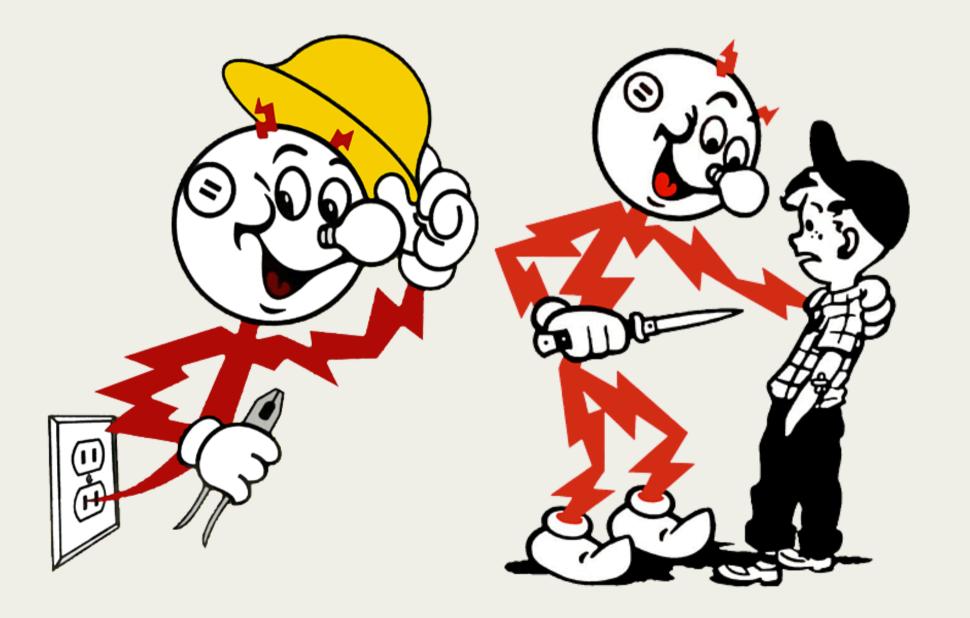

## ICON

a sign that shares physical characteristics with

the concept it is representing

## SYMBOL

An image or object which represents something based off of culturally learned knowlege as opposed to direct imagery

Banksy ------ Art as symbol

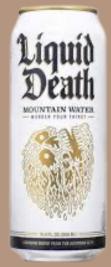

## substance as symbol

•••••

## INDEX

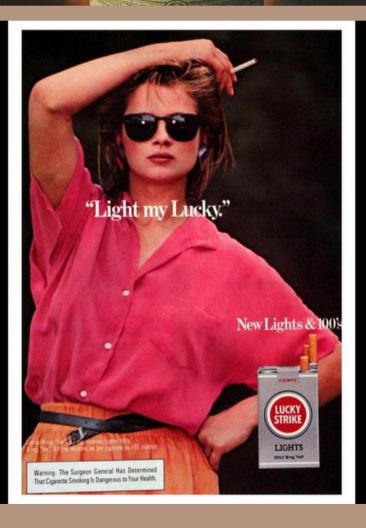

Shows evidence of what's being represented. A good example is using an image of smoke to indicate fire.

## Peel a tangerine after dinner tonight.

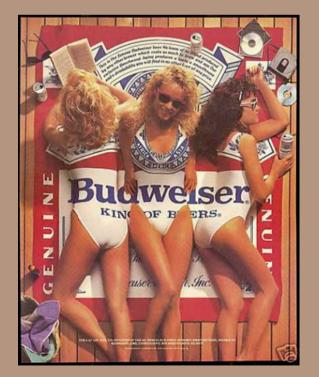

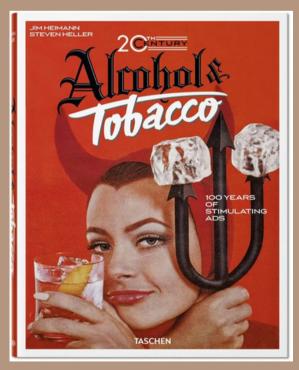

## From sex symbol to universal ban Health is the catalyst of change

## that Bud ... that's beer!

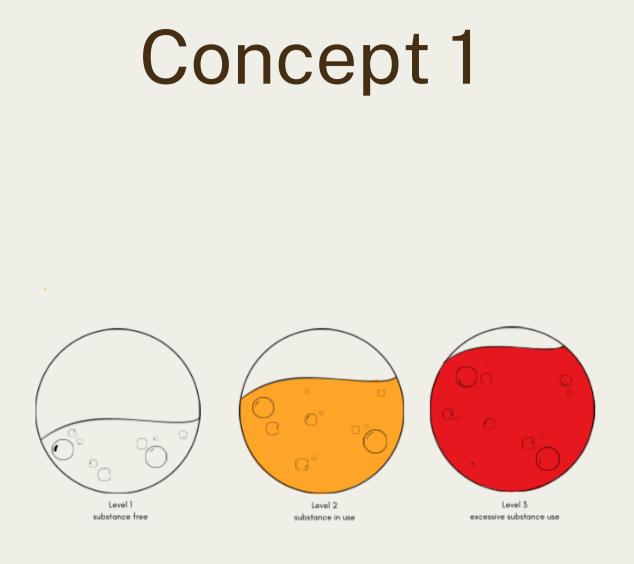

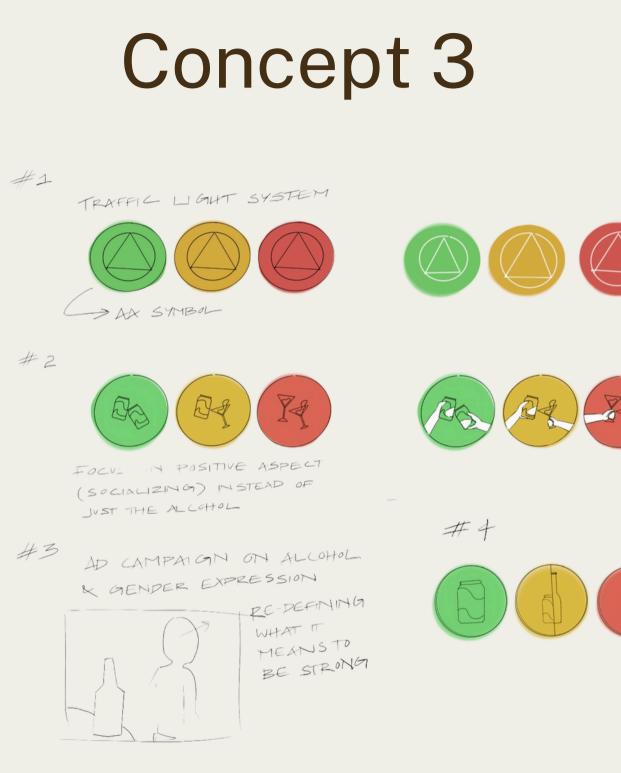

How else might we convey substances in our culture/environments to better serve rehab patients reintegrating into society?

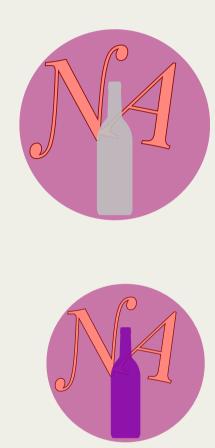

Levels of Integration

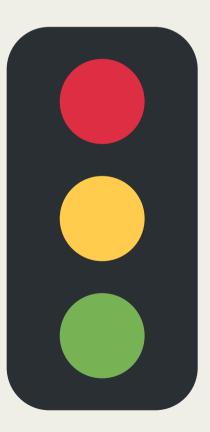

## **USING SEMIOTICS FOR SOBRIETY**

## Index

The traffic light is the system being represented, using the common practice of go, slow, stop. This index serves as the organization for our method

## lcon

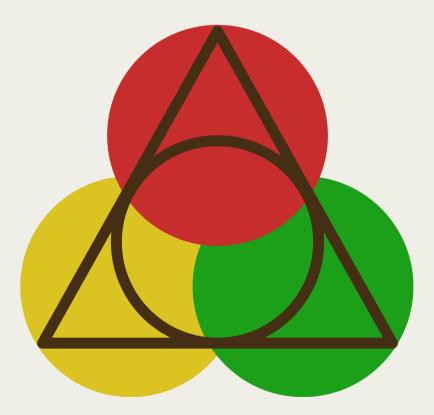

In combination with the traffic colors, the physical characteristics of alcoholic and nonalcoholic drinks show the difference between spaces and what level of substance is present

## **Symbol**

A visual of the culturally adopted sober symbol over the traffic colors to serve as a holistic visual reminder of our sober stoplight system

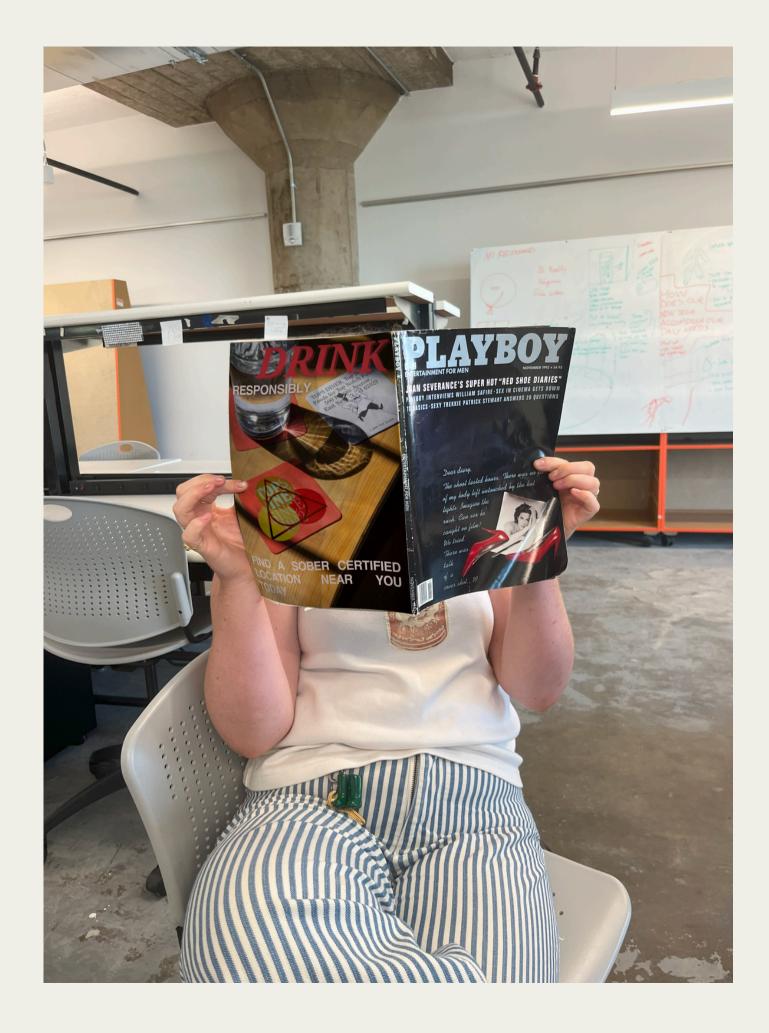

## **GRADING SYSTEM**

ALCOHOL FREE SPACE

ALCOHOL PRESENT BUT NON-ALCOHOLIC OPTIONS AVAILABLE

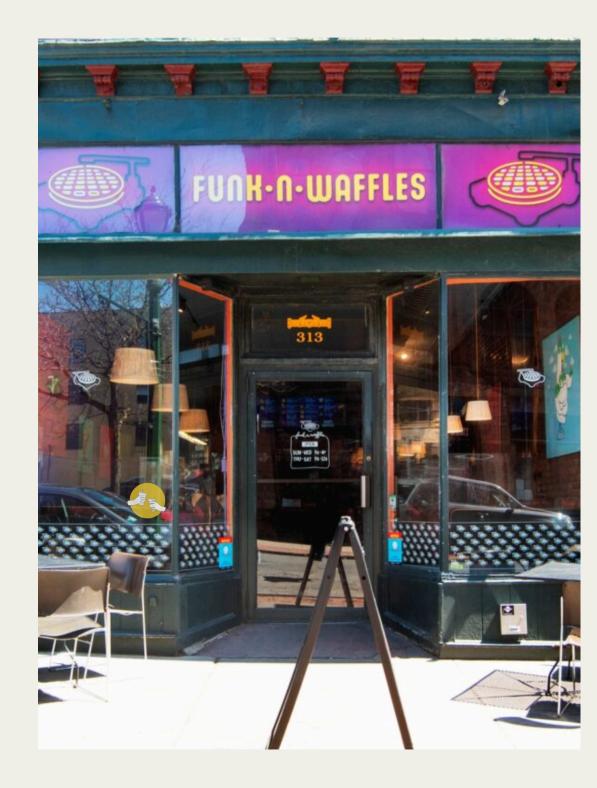

ALCOHOL PRESENT AND NO NON-ALCOHOLIC OPTIONS AVAILABLE,
